Krevans Now on US Dollar Bill

"Friends" and colleagues gathered on Thursday, October 3, to roast Julius Krevans. While some people were most kind and singed the Chancellor only a smidgeon, others (such as Medical Center director Bill Kerr) went for the jugular. Above is a six-foot dollar bill used at the roast which hinted ever so slightly at the Chancellor's propensity for "encouraging support." (See the full story on page 8.)

An Opportunity to be Charitable

UCSF's Maura Mason jumps out of bed at 6 a.m. every weekday. She prepares breakfast, gets her 2 1/2-year-old daughter Lauren ready, and they're both out of the door by 6:50. She drives 30 minutes or more to get to child care. She drops Lauren off, then speeds off to SFGH where she starts work at 7:30 as an administrative assistant in the Microbiopathogenesis Unit.

Maura is a typical working mom. And as such, she is very grateful to be able to put Lauren in the trusting hands of the people at the YWCA Child Development Center at Mission Center. She is one of up to 50 families a year who have children at the Center, around 15 of whom are usually from UCSF.

Helen Hawks, who manages the Center, also is grateful: her center is one of the agencies that benefits from The United Way. In fact, it is one of the hundreds of worthwhile organizations, including the campus' Lucia Child Care Study Center, which you can donate to through The United Way.

This year's UCSF United Way Campaign will run from November 4 to 15. And donating to The United Way is more important than ever.

"Everyone knows what a tough year it has been financially. Just look at all the budget cuts we've had in this state and at this university alone," says Thena Trygstad, vice chancellor, Staff & Student Human Resources, who is chairing the campus campaign this year. "Many worthwhile programs have been cut and there are more people than ever before in need of assistance. It's very natural in a time when everyone is feeling the effects of our ailing economy to say 'I just can't this year.' But, I urge everyone to consider the growing number of people in need of help, and to donate whatever amount they can."

(continued on page 2)

Benefit for UCSF's Brain Tumor Research Center

Spend an "Evening with Burt Reynolds"

In its West Coast premiere, Emmy Award winner Burt Reynolds presents his new show, "An Evening with Burt Reynolds" one night only on Monday, November 11. The show is a benefit called "A Night of Entertainment" with proceeds going to the UCSF Brain Tumor Research Center (BTRC).

The evening will begin with a pre-show patrons' dinner and cocktail hour starting at 5:30 p.m. at Davies Symphony Hall. At 8 p.m., Reynolds will recount the "laughs, loves, lies and legends and more lies" of his life in his new one-man show. Hosted by *Entertainment Tonight's* Mary Hart, the show also will feature cameo appearances by several of Reynolds' friends, including Loni Anderson, Lynda Carter, and surprise guests.

The show will honor UCSF's Charles Wilson, professor and chair, neurosurgery and director of the BTRC, the only designated facility in the US devoted exclusively to brain tumors. The BTRC is comprised of some 50 health care professionals and research investigators, all dedicated to the treatment and cure of brain tumors.

Winner of this year's Emmy Award for Best Actor in a Comedy for his role as Wood Newton in the TV show "Evening Shade," Reynolds has some 50 motion pictures to his credit including *Deliverance, White Lightning, The Longest Yard, Smokey and the Bandit, Semi-Tough* and *City Heat*. His TV appearances include his portrayal of Ben Frazer on *Riverboat* and as Quint Asper on *Gunsmoke*.

Patron tickets for cocktails, dinner and show are $1,000 each. Show only tickets are $25 (second tier) and $50 (orchestra/lodge). Tickets are available through the Davies Symphony Box Office, 431-5400; BASS/Ticketmaster, 762-BASS; or any major ticket agency. For further information about the benefit call 296-1111.

A few of the UCSF children at the YWCA center at MCB: György, 4-year old son of pharmacy's György Levay; Kasey, 3-year-old daughter of radiation oncology's Louise Thompson; Michael, 3-year-old son of personnel's Bob Rojas and dental academic affairs' Laurie Rojas; and 2 1/2-year-old Kaylee, daughter of engineering's Bob Basso.

Campus Has New Disaster Plan

A comprehensive final Campus Emergency Operations Plan has been sent to all campus departments and units. It represents the culmination of work by the Emergency Preparedness Committee, chaired by Vice Chancellor Brent Stevenson, which was set up after the October '89 quake. Along with the plan, each department will receive Emergency Preparedness and Response Program Guidelines and "templates" to help develop departmental, site and precinct emergency action plans.

According to Chancellor Krevans, the new emergency plan will be updated regularly by Assistant Vice Chancellor-Public Safety and Police Chief Ron Nelson, while Environmental Health & Safety will be responsible for assisting departments in implementing the guidelines, developing site-specific emergency plans, and providing training.

Krevans says, "Our final plan is in place and the templates are designed to enable individual departments, sites and precincts to 'fill in the blanks.' The issue then becomes one of education; it is imperative that all employees become familiar with the emergency plan and procedures within the department and that all departments be trained in emergency response. The best plan is useful only if everyone is familiar with it."

All department and unit heads will be designating individuals who will be responsible for attending EH&S emergency training ses-

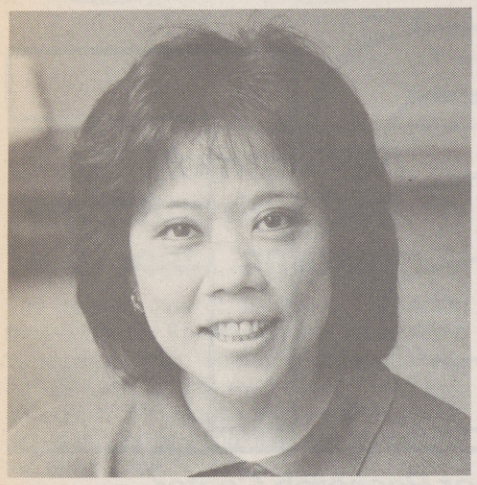
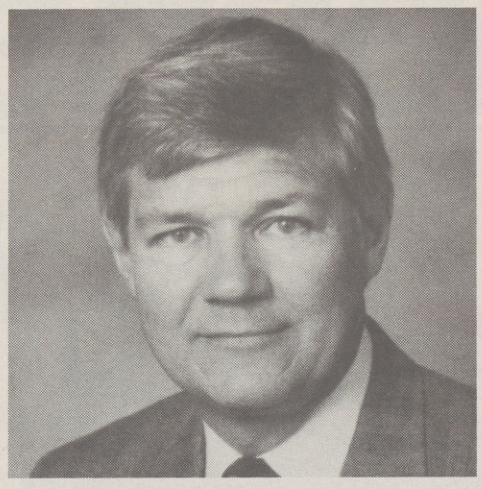
Honors & Awards



Chan

Marmar



Schrock

Skodol Wilson

Weiss

Jane Chan: Received an American Academy of Neurology Research Fellowship Award and an American Heart Association Award for her work on endothelins and intracellular calcium. Chan is postdoctoral fellow, neurology.

Holly Skodol Wilson: Selected as a Sigma Theta Tau Distinguished Lecturer for the 1992-93 biennial convention in Tampa. Sigma Theta Tau is the national nurses honor society. Skodol Wilson is professor, mental health, community & administrative nursing.

Susan R. Gortner: To receive the Katherine Lembright Award from the American Heart Association Council on Cardiovascular Nursing on November 12. The award recognizes excellence in cardiovascular research by established nurse scientists. Gortner is professor, family health care nursing; director, Cardiac Recovery Lab.

Andrew W. Murray: Received a fellowship in science & engineering for 1991 from the David & Lucile Packard Foundation for $100,000 a year for five years. Murray is assistant professor, physiology.

Charles R. Marmar and **Daniel S. Weiss:** Co-recipients of the Robert S. Laufer PhD Memorial Award for Outstanding Scientific Achievement in the field of Post Traumatic Stress Disorder (PTSD). The award is presented by the International Society for Traumatic Stress Studies. Marmar is associate professor, psychiatry; chief, PTSD Program, VAMC. Weiss is associate professor, medical psychology; director, research, PTSD Program, VAMC.

Steve Kohl: Appointed to the Committee on Infectious Diseases of the American Academy of Pediatrics, which is responsible for national guidelines related to infectious diseases and children. Kohl is professor, pediatrics; chief, pediatric infectious diseases, SFGH.

John F. Knapp: Elected to a three-year term on the Board of Directors of the Accreditation Council for Continuing Dental Education. He also was elected chair of the Board for 1991-92. Knapp is associate clinical professor, Dental Public Health & Hygiene; associate dean, School of Dentistry.

Theodore R. Schrock: Honored by the Bay Area Chapter of the Crohn's & Colitis Foundation of America for his outstanding work with patients with inflammatory bowel disease. Schrock is professor, surgery; chief, Gold Surgery Service & Surgical Clinic.

Thomas J. Coates: Named chair, Steering Committee of Social & Behavioral Studies Unit, Global Programme on AIDS, World Health Organization. He also received the 1991 Outstanding Research Award from Division 38 of the American Psychological Association. Coates is professor, medicine.

1991 Grad Wins First Resnik Award

Ann Ruffner Carlstead (left), a '91 graduate of the Occupational Health Nursing Program, was presented with the first Barbara A. Resnik Writing Award by Resnik herself (right) for her paper entitled "Video Display Terminal Use & Cumulative Trauma Disorder." The award's goal is to stimulate publication of articles relevant to occupational health nursing and to recognize Resnik's contributions as professor emeritus and former director of UCSF's Occupational Health Nursing Program.

In Memoriam

Morris "Mo" Bernstein: A member of the UCSF Board of Overseers since 1980 and winner of the UCSF Medal in 1975, Bernstein was a shaper of politics and civil institutions in San Francisco for 40 years. Considered an excellent businessman, he was named to the Board of Fire Commissioners by former Mayor Jack Shelley in 1965 to help integrate the then all-white fire department. In 1976 he was named to the Airports Commission by then-Mayor George Moscone and, with his business know-how, transformed SFO into a successful business that brings revenue to the city. A member of the Mount Zion Board of Directors for several years, Bernstein put his efforts later in life into supporting and raising funds for Glide Memorial Methodist Church, where 3,200 meals are served to the homeless and destitute every day. Bernstein was 85. Memorial donations may be made to Mo's Kitchen at Glide, 1330 Ellis; the Jewish Home for the Aged, 302 Silver Ave.; or the UCSF Michael Stulbarg Research Fund.

Daniel E. Groman: A radiation therapy technologist in the radiation oncology department at Mount Zion of UCSF since 1988, he also performed his training there beginning in 1986. Groman died on September 20 when the plane he was piloting crashed in a remote area of Santa Clara County. One other person, the only passenger, also died. As a radiation therapy technologist, Groman performed radiology treatments for oncology patients. An avid outdoorsman, he was on his way to earning a commercial pilot's license. Groman was 32. Memorial donations may be made to the Sierra Club Foundation, SF Bay Area Chapter, Memorial Gifts, 5237 College Ave., Oakland, CA 94618.

Vickie Chan: A clerk in the Department of Urology's faculty practice since 1988, she did general office work such as photocopying, filing and administrative support. Active in her church and a Sunday-school teacher, she also was active in Amnesty International. Chan and three friends were in a car accident on August 31 which also claimed the life of one other passenger. Chan was 21.

David Powers

Help for 8,000 Children

"We just couldn't function without them," says Karin Vargervik, director of the Center for Craniofacial Anomalies. She's talking about the Native Sons of the Golden West, whose members last week donated another $80,000 to the Center. Since 1953, members of this fraternal organization have donated $1,106,000, which has made it possible for the Center to help some 8,000 children with birth defects. Above, Vargervik points out the marked asymmetry in the jaw bones of a young patient to Native Sons Tom Perazzo, grand president (left) and Don Madsen, chair.

United Way *(from page 1)*

A donor representative from your department will be giving you a contribution envelope on or shortly after November 4. Don't be concerned if you also receive a solicitation in your home mail. Trygstad explains that in the past few years The United Way has successfully solicited individual donors by direct mail, and has thereby increased its overall outreach in the Bay Area. "You may be on one of their mailing lists for any number of reasons," she says, "but we hope you will choose to join your co-workers and give to The United Way through the workplace."

If you have been designated a campus donor representative, please take note of these orientation sessions, each held from 9 to 10:30 a.m.:

- Friday, October 18, Mission Center, Rm. 125.
- Wednesday, October 23, Toland Hall.
- Friday, October 25, SFGH library, Rm. 208.

If you haven't signed up for one of the above sessions as yet, please call Ruth Weiller in the Chancellor's Office at 476-2401.

Meanwhile, LPPI has a slightly different approach for their donor reps this year. "Because most of LPPI's 25 United Way donor reps have training experience from previous campaigns, the focus this year will be on educating the team on one target problem: homelessness," says Ann Poirier, who is coordinating the LPPI donor reps. Ann explains that the Bay Area United Way Subcommittee on Homelessness has developed a one-hour presentation called "Lunch Hour Seminar on Homelessness."

The LPPI presentation, which will be held on Wednesday, October 30, from noon to 1 p.m. in LPPI Rm. A-116, will include a discussion on the causes and magnitude of poverty and homelessness, insight into the daily experiences of people who become homeless, and the solutions and preventative steps that need to be taken to address this problem. The presentation is open to everyone.

To find out what the Medical Center has planned for The United Way Campaign, turn to page 8.

Philips Honored at Friends of LPPI's 20th

Psychiatrist Irving Philips will be honored at the Friends of Langley Porter Psychiatric Institute's 20th anniversary on Friday, October 25, beginning at 7 p.m. at the Ritz-Carlton in San Francisco.

Well known in the fields of child and adolescent psychiatry, Philips is professor of psychiatry and a founder of the Friends of LPPI. Coming to UCSF in 1955, he is former chair and president of the National Consortium for Child Mental Health Services for the American Academy of Child Psychiatry, and president of both the International Association for Child & Adolescent Psychiatry and the Northern CA Psychiatric Association.

Philips is the winner of the American Psychiatric Association's Agnes Purcell McGavin Award, the Northern CA Psychiatric Society's Outstanding Achievement Award and UCSF's J. Elliott Royer Award.

Other Friends of LPPI founders to be recognized at the ceremony will be Sallee Allen, Patricia Costello, Donald Doyle, Leon Epstein, Mrs. Charles Klaif, Julia Burns-Robinson, Libby Denebeim, Cloyce Duncan, Harold Furst, John Lie-Neilsen, Alexander Simon and Alfred S. Wilsey.

Tickets for the event, at $175 each, are available by calling 431-0613.

Philips also was honored a week earlier at a symposium on Wednesday, October 16, at the UCSF-Laurel Heights Conference Center. Sponsored by the Department of Child & Adolescent Psychiatry, the symposium was entitled "Towards the Future: Trends in Child & Adolescent Psychiatry" and featured:

- E. James Anthony, director, Child & Adolescent Psychotherapy, Chestnut Lodge Hospital Clinical Center, Rockville, speaking on "An Invincible Summer: A Commentary on Vulnerability & Resilience."
- David Shaffer, The Irving Philips Professor of Child Psychiatry, Columbia, speaking on "The South-African Revolution: A Challenge for IACAP and for Western Child Psychiatry."
- Albert Solnit, Sterling Professor Emeritus of Pediatrics & Psychiatry, Yale (UCSF '43 School of Medicine graduate), speaking on "University-Public Collaboration in Mental Health."

Irving Philips

Chromosome Painting Lights Up Cancer Cells

A major technological advance developed by researchers in the new Molecular Cytometry Laboratory at Mission Center could change the way cancer is diagnosed and treated.

The laboratory is new to UCSF, but the research team, led by Joe W. Gray, professor, and Dan Pinkel, associate professor, both in laboratory medicine, has been working for the past 18 years at Lawrence Livermore National Laboratory to develop techniques to stain or "light up" entire chromosomes within cells. This permits significantly faster and more accurate identification of human chromosome abnormalities frequently present in cancer.

"With new advances our research soon will understand the evolutionary progression of tumors and hopefully will help identify features that will permit therapy to be individualized," says Gray, who directs the Division of Molecular Cytometry.

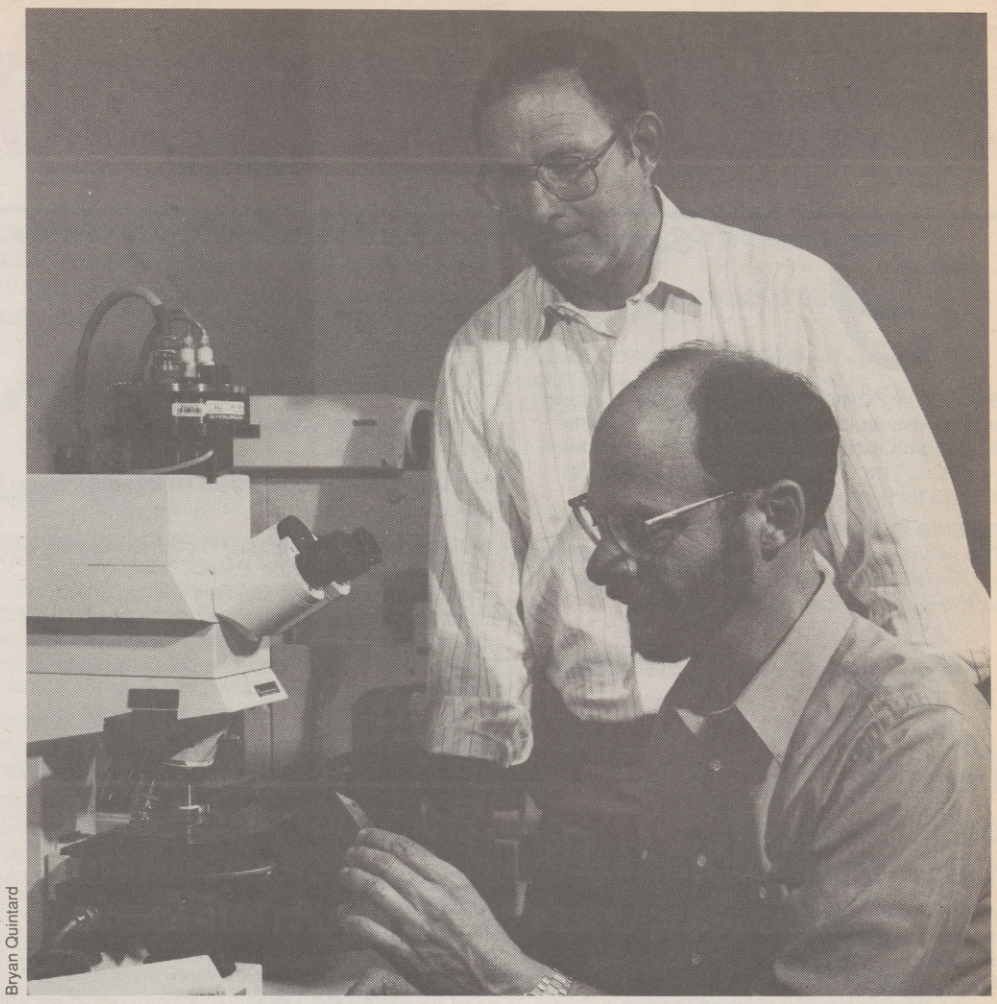
In addition to aiding in cancer studies, the technology allows researchers to detect human chromosome abnormalities caused by environmental accidents, such as the Chernobyl nuclear power plant accident.

Gray and Pinkel appeared at a news conference last week in Washington, DC to announce the release of the technology as a research product called "Whole Chromosome Paints" sold by Imagenetics, an Illinois-based medical diagnostics company.

The lab moved from Livermore to UCSF in July in order to develop the technology with medical researchers in a clinical setting.

Gray and Pinkel now hope to develop more specific and targeted research diagnostic tools to identify diseases based on gene abnormalities in specific areas of chromosomes.

The molecular cytometry team is working with researchers Mitchell S. Golbus to develop tests for prenatal diagnosis of diseases such as Down's syndrome, Frederick M. Waldman and Christopher C. Benz to develop tests for breast cancer, and again with Waldman and Brian H. Mayall and Peter R. Carroll to develop tests for bladder and prostate cancers.



Bryan Quintard

Joe Gray (standing) and Dan Pinkel

Bernstein is New "Consumer Pharmacist"

Tune into KTVU Channel 2 any Wednesday, Friday or Sunday and you'll find UCSF pharmacist Linda Bernstein as the new "Consumer Pharmacist." Giving helpful tips on such things as poison prevention, medicines used by the elderly, getting to know your pharmacist, drug-related economic issues and the latest in pharmacy research, Bernstein can be seen on Wednesday, between 8 and 9 a.m. on the *Mornings on Two* program; Fridays between noon and 12:30 p.m. on the *Two at Noon* news program; and Sundays between 6 and 7 p.m. on the evening news.

An associate clinical professor of pharmacy, Bernstein produces, writes and hosts the show. She has been on the Division of Clinical Pharmacy faculty since 1979, and has received numerous research and media awards. For the past five years, Bernstein has produced and hosted "In the Medicine Cabinet," a weekly half-hour consumer-oriented radio program which airs Sundays 7 a.m. on KFRC, Magic 61.

Linda Bernstein

Tomkins Concert & Lecture Oct. 25

Mark Friday, October 25, on your calendar to attend the annual Gordon Tomkins Concert & Lecture. Held from 3 to 5 p.m. in Cole Hall, the concert will feature The Parnassus Chamber Ensemble with Fred Chang on violin, Thomas Kornberg on cello, Stephen Levintow on viola, Peter Ostwald on violin, Larry Posner on clarinet, and Ravinder Sehgal on piano. They will play *Overture on Hebrew Themes, Opus 34* by Sergei Prokoviev and *Quintet in E flat major, Opus 44* by Robert Schumann.

Following the concert, Nobel Laureate David Baltimore, president of Rockefeller University, will discuss "The Aging Process — As Viewed by a Concerned, but Naive, Molecular Biologist." A reception will follow the lecture from 5 to 7 p.m. at the Faculty/ Alumni House.

The lecture/concert is sponsored by the Department of Biochemistry & Biophysics.

"Race for the Cure" Volunteers Needed

Organizers of "Race for the Cure" are looking for volunteers race day, Sunday, October 27. Just report to Sharon Meadow at Oak and Stanyan Streets (entrance to Golden Gate Park) at either 7 a.m. or 8:30 a.m. "Race for the Cure" is a benefit run to raise enough money to give up to 3,000 free mammograms to the medically underserved women of the Bay Area. The free mammography program will be administered by UCSF's Mobile Mammography Van. The race is presented by the Susan G. Komen Breast Cancer Foundation.

If you would like more information on volunteering call Wendy Ostrin at 931-6282.

If you would like to be a race participant and part of a UCSF team, call Jimmy Choy at 476-1700 or Brenda Patterson at 476-8055. You'll get a free "Race for the Cure" T-shirt and a free UCSF T-shirt. (The same goes if you volunteer.)

Disaster *(from page 1)*

sions and establishing a departmental plan. According to Ron Montgomery of EH&S, the first training sessions will be held the beginning of the new year. Separate mailings will go out notifying the campus about them, and they also will be listed in *Newsbreak*.

Has '89 Damage Been Repaired?

According to Jerry Teague of Capital Resources Management, most of the damage sustained by the October '89 quake has been repaired and some systems have been upgraded. "Emergency lighting now is in place in the HSW towers, which allows 90 minutes for evacuation," explains Teague. He says the emergency lighting consists of special fluorescent tubes added to the existing lights.

During the '89 quake, the Power Plant lost its ability to generate emergency power because the gas-fired boilers shut down. There was no electrical power so they could not be restarted. Now, the Power Plant is connected to the emergency power of the Medical Center to prevent this from happening again. "We had no way to re-fire the Power Plant before, but if we should lose power again, we can use the Medical Center's emergency power to boost us back up," says Teague.

If you recall, the seismic joints between the campus buildings behaved just as they should have during the last quake and many of them eventually popped out. According to Teague, most of those seismic joints have been replaced except for a few floors of the Medical Center, which are requiring more extensive work.

"We had about $1.7 million worth of repairs to make on this campus," says Teague. "That includes everything from replacing the seismic joints to simple carpentry. So far we have been reimbursed for one-third of them from the Federal Emergency Management Administration (FEMA) and are awaiting the remainder."

Disaster Drills

The new Campus Emergency Operations Plan calls for disaster drills to be conducted on a regular basis. The drills will include site-specific evacuation procedures.

Meanwhile, the Medical Center has had its own disaster plan for the last several years to primarily deal with patient care areas. It conducts two drills a year (required by the JCAH — Joint Commission on Accreditation of Hospitals). The next one is during the afternoon of Wednesday, October 23. It is in conjunction with the Red Cross and will test all areas of the Center's disaster plan. For further information see page 8.

UCSF Cubs Tryouts

Tryouts for the UCSF Cubs Pony League team will be held during the months of October and November. Players can be 12 years old, but must be 13 during April 1992 and cannot be older than 14 on July 31, 1992.

Assistant coaches also are needed for the team. You must be 18 years or older, have knowledge of the game and be able to get along with young players.

For further information contact Cubs manager John W. Davis at 731-5072.

21 Monday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms—X-rays to screen for breast cancer — from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physician to have the mammogram, in addition to their physician's full name, address (including room number & zip) & phone number to assure results are mailed promptly. The procedure takes approximately 20 minutes & costs $50. To make an appointment call 476-2193 between 9 a.m. & 3 p.m.

The van will be at the following locations for the next two weeks:

- Oct. 21-25: Levi Strauss. On Battery between Union & Greenwich.
- Oct. 27: Sharon Meadow, Golden Gate Park. Part of "Race for the Cure" events.
- Oct. 28-31: Sunset District. On Irving St. between 25th & 26th Aves.
- Nov. 1: UCSF. On Parnassus at Medical Cntr. Way.

A $50 mammogram also is available at the Mount Zion radiology department. Call 885-7710.

OTOLARYNGOLOGY GRAND ROUNDS: *Case Presentations from Mount Zion of UCSF.* Michael Echavez, Oto. S 214. 8-10 a.m.

VAMC NEURORADIOLOGY ROUNDS. Rm. 2A56, VAMC. 9:15-10 a.m.

VAMC NEUROPATHOLOGY ROUNDS. Rm. 2A56, VAMC. 10:10-11 a.m.

FRIENDS OF LOIS AL-ANON MEETING. Closed meeting: for friends & families of alcoholics only. Rm. 300C, MCB. Noon.

LABORATORY MEDICINE GRAND ROUNDS: *Nuclear Medicine in 1991: Imaging, Molecular Physiology & Clinical Practice.* Robert J. Lull, Lab. Med. & Rad., SFGH. L 535. 4-4:50 p.m.

CVRI/PROGRAM OF EXCELLENCE IN MOLECULAR BIOLOGY SEMINAR: *Molecular Genetics of Serotonin Receptor Function.* David Julius, Pharm. S 1364. 4-5 p.m.

URO-ONCOLOGY CONFERENCE. M 464. 4:30-6 p.m.

IMMUNOLOGY SEMINAR SERIES. HSW 302. 5 p.m.

22 Tuesday

PLASTIC SURGERY GRAND ROUNDS: *D & C Conference.* Rm. 200/1A-122, VAMC. 7 a.m.

CLINICAL HEMATOLOGY CONFERENCE. M 1296. 7:30-8:30 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Barbara Jim-George, 476-1662.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Fine Needle Aspiration.* Britt-Marie Ljung, Path. C 701. 8 a.m.

TRANSFUSION RESEARCH FORUM: *Regulation of HIV by T-Cell Activation Signals.* Sandra Tong, Med., VAMC. L 535. 8:30 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Cocaine Exposure.* Don Wong, Neonat., SFGH. Carr Aud., SFGH. 8:30-9:30 a.m.

OB/GYN GRAND ROUNDS: *Anemia.* Russell K. Laros, Jr., Ob/Gyn & Repro. Sci. S 1364. 9 a.m.

THE NEXT DEADLINE

Tues., Oct. 22 is the deadline for items to be listed in the next calendar, which covers **Nov. 1-22 (three weeks).** They must be received in our office in writing by 11 a.m. on that Tuesday. Mail your copy to Michele Firpo at Box 0462, call 476-1541, send a fax to 665-8668 or bring it to S 20.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 18 & over. A 222, LPPI. 10 a.m.-noon. Help-line provided daily, 7 a.m.-10 p.m. at 759-7923.*

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

WOMEN'S RESOURCE CENTER PRESENTATION: *Judicial Genocide.* Patrick Hooty Croy, a Shasta/Karuk Indian, & Bia De Ocampo, Youth Empowerment Prog. of Native American Hlth. Clin., discuss their personal lives, the imprisonment of Croy's sister & the effect of the US educational & judicial systems on their lives. Cole Hall. Noon-1 p.m. Call 476-0400 for information.*

JOINT BRAIN TUMOR RESEARCH CENTER/ MICROBIOLOGY SEMINAR: *Polyamine Synthesis in Plants & Genetics of Floral Determinancy.* Russell L. Malmberg, Bot., U Georgia, Athens. L 535. Noon-1 p.m.

MEDICINE IN THE MOVIES: Films from the '20s through the '50s that touch on issues of medicine, nursing & public health are shown every Tues. Students may receive elective credits. Sponsored by Hist. Hlth. Sci. HSW 302. Noon-1 p.m. Call 476-2767 for more information.*

VOLUNTEER ORIENTATION: To acquaint new & potential volunteers with opportunities available in the Medical Center at UCSF. LPPI Aud. 2-4 p.m. Call 476-1196 for information.*

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 3 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

BIOCHEMISTRY & BIOPHYSICS SEMINAR: *Molecular Themes in* C elegans *Sex Determination & Dosage Compensation.* Barbara Meyer, Mol. & Cell Bio., UCB. HSW 301. 4 p.m. Student lunch with speaker at noon in S 980. Sign up in S 962.

WOMEN IN LIFE SCIENCES PRESENTATION: *Contemporary Science: Could We Be Doing It Better?* An informal discussion on an article entitled "Science through a Feminist Prism." N 729. 4-5 p.m. Call Renée Williard at 476-9930 for information.

NEUROLOGY GRAND ROUNDS: *Hypertensive Encephalopathy — Disease in Search of a Patient.* John Engstrom, Neuro. S 664. 5-6 p.m.

WELCOME TO OUTDOORS UNLIMITED PRESENTATION: How to become involved in learning new skills, meeting new people & cooperative outdoor adventuring. OU Cntr., Parnassus & 4th Ave. 7:30 p.m.*

23 Wednesday

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Current Topics in Epidemiology.* Virginia Ernster, Epid. & Biostat. Bldg. 30, 5th fl., SFGH. 8-9 a.m.

DERMATOLOGY GRAND ROUNDS: *Herpes Virus Infections.* Clark Huff, Derm., U Colo. HSW 301. 8-9 a.m.

NUCLEAR MEDICINE SEMINAR. LPPI Aud. 8:30 a.m.

ENDOCRINE GRAND ROUNDS: *Pharmacological Treatment of Osteoporosis: 1991 Perspective.* Steve Harris, Med. & Rad. M 1486. 8:30 a.m.

BROWN BAG LECTURE SERIES: *Finishing the First Draft: How to Get Unstuck with Your Writing Project.* Saul E. Rosenberg, Psychr. Sponsored by Campus Tours & Speakers Bureau. HSW 300. Noon. Call 476-4394.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. Rm. 300C, MCB. 12:05 p.m.*

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 18 & over. Two locations & times: A 222, LPPI, 1-3 p.m., and N 517, 7-10 p.m. Help-line also provided daily, 7 a.m.-10 p.m. at 759-7923.*

PSYCHIATRY GRAND ROUNDS: *Cults & Restrictive Groups: Recruitment, Indoctrination & Issues in Recovery.* Michael Lisman, Psychr. Soc. Work., VAMC Martinez. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

Benefits/Personnel

Open Enrollment Begins November 1; Attend an Open House & Learn Your Options

Open enrollment is your opportunity to make changes in your benefits plans. To help you go about this in a prepared and intelligent manner, the Office of Financial Planning and Benefits is offering an open house at each of three locations:

- **Mount Zion:** Monday, November 4, 8:30 to 10:30 a.m. in Room A-18
- **Mission Center:** Monday, November 4, 11:30 a.m. to 2:30 p.m., Room 125
- **Parnassus:** Tuesday, November 5, 8 a.m. to 3 p.m., MU Conference Center

If you stop in during any of the above times, you'll find representatives from the medical, dental and legal plans, including Foundation, Heals, Health Net, Kaiser, Prudential, TakeCare and UC Care to provide information about the medical plans; Deltal Dental and PMI for the dental plans; and Midwest Legal Services. This is the only time during the year when all the reps are gathered in one location, allowing you to go straight to the source, ask your questions and gather informaton.

Other options for this year's Open Enrollment period include TIP (Tax Savings in Insurance Premiums), DEPCARE (Dependent Care Assistance Program) and optical insurance (Vision Service Plan). Members of the staff from the Benefits Office will be present at the open houses to answer your questions on these plans.

If you have questions, check with your department's benefits rep or call the Benefits Office, 476-1400.

New Coordinator: Rape Prevention Education Program

Tamera White is the new coordinator for the UCSF Rape Prevention Education Program. White is the former community education director for Sexual Assault Counseling Services of Marin (formerly Marin Rape Crisis Center).

In addition to her new job at UCSF, White hosts a talk show on KSOL radio, "Love is the Key" — a general interest show with special emphasis on issues of importance to women of color.

The Rape Prevention Education Program is part of the UCSF Women's Resource Center, located in the Woods Building at 100 Medical Center Way. White can be reached at 476-5223.

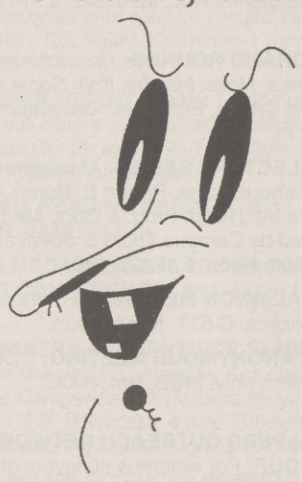
Fun Zone

Halloween Party in Saunders Court, Oct. 31

This year's campuswide Halloween Festival in Saunders Court will take place at noon on Thursday, October 31, with music provided by Afro hi-life band, "The World Connection." (If it rains, head for the gym.)

This year's grand prize for the pumpkin contest will be a catered lunch for your department (up to 12 people); and top prize for the costume contest is a $250 Lenscrafters gift certificate. To enter the costume contest, just show up. To enter the pumpkin carving contest, call EMPACT!, 476-2675, for an entry form and get it turned in by Friday, October 25.

The UCSF event is sponsored by MU Programs & Services, EMPACT!, Office of Student Relations and HEALS/Qual-Med Health Plan.



Jon Potter

For information on activities at SFGH, call 695-6052. For MZ, call 885-7755.

Also note:

- **See's Candy holiday pre-orders.** Forms due Mon., Nov. 11. Form is on back page of the EMPACT! newsletter. Or call 476-2675.
- **Overcome Writer's Block.** Workshop on Sat., Nov. 2, presented by Saul Rosenberg, associate clinical professor, psychiatry. Call 476-1115.
- **Flower arranging.** Wed., Nov. 6, 10:30 a.m. at the Faculty/Alumni House. Seminar and lunch. Emphasis on dried flower arrangements for the holidays. Sponsored by the Faculty Wives & Associates. Call 921-6646 for information.

Research Funds Available

The following research funds are available:

- UC Systemwide Biotechnology Research and Education Program/Science & Biochemical Engineering. For areas related to biotechnology, which may include the basic sciences and biochemical engineering. Deadline December 9. Letter of intent by November 1. Call C. Anthony Hunt, 476-2455, for information.
- Education Challenge Grant on Biotechnology. For innovative education activities related to biotechnology. Matching support required. Same contact, deadlines as above.
- Societal Impact, Public Policy and Public Education. Related to biotechnology, including but not limited to political, social, ethical, educational and public policy issues. Same contact, deadlines as above.
- Toxic Substances Research and Teaching Program. Seed funding for innovative grants in any area of research relevant to problems of toxic substances in California. Deadline January 31, 1992. Contact Melissa Mardesich, (916) 752-2099.
- Cancer research funds. President's Systemwide Cancer Research Coordinating Committee. Deadline December 2. Call Contracts & Grants, 476-2977.

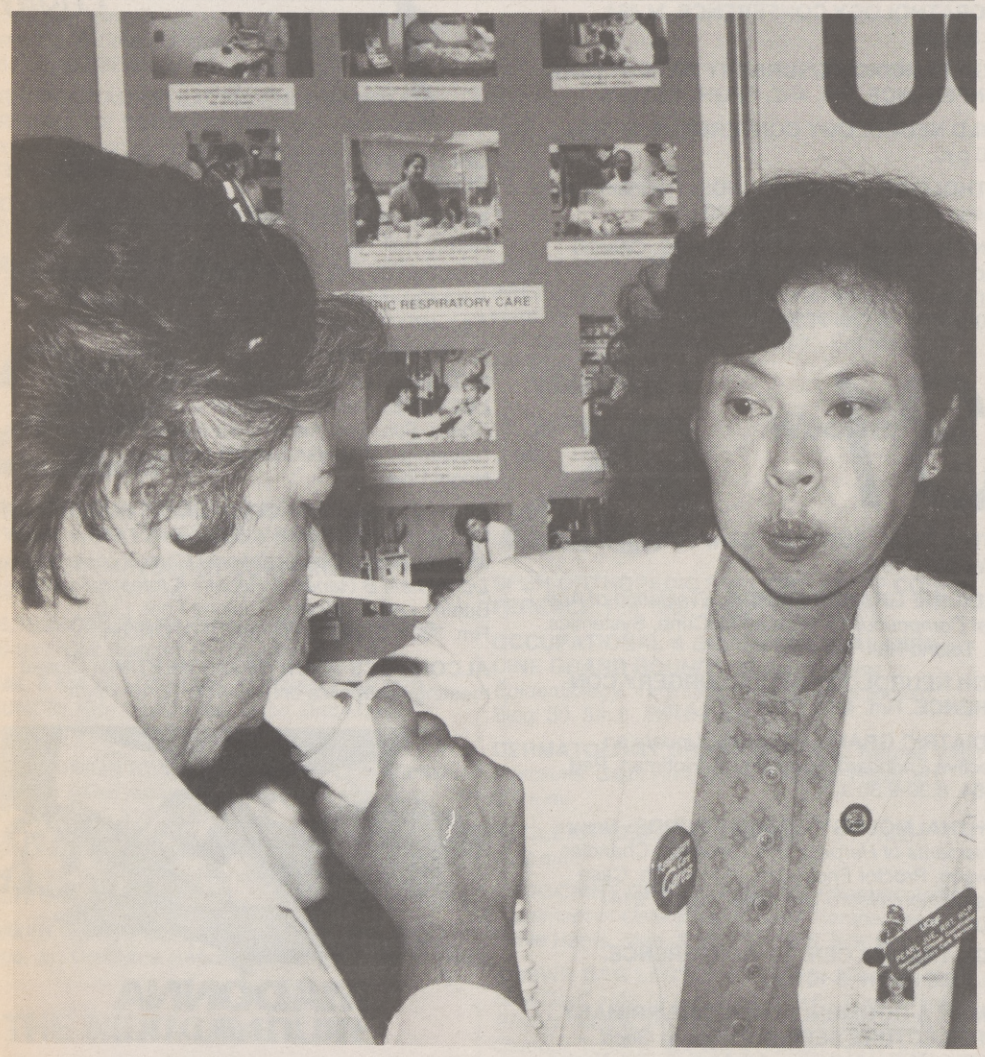
Two Seminars on Alternate Work Schedules

ABOG and the UCSF Child & Elder Care Referral Service are sponsoring two seminars during November on flexibility in the workplace — one for managers and another from the employee's perspective. Both seminars will be presented by Linda Marks, a work options consultant in San Francisco. There is no charge to attend. For further information or a flyer, call the Child & Elder Care Referral Service, 476-2692.

Tuesday, November 12: "Flexibility in the Workplace: The Manager's Perspective." 2 to 4 p.m. in S 664. Marks will discuss a variety of alternate work schedule options, and how to incorporate these alternate work styles into the overall picture.

Tuesday, November 19: "Toward a Better Balance: Exploring Alternative Work Schedules." Noon to 2 p.m. in S 1364. Ideas for alternative work schedules and how to plan and propose a schedule that will work for employee and employer.

Medsounds Continued



Plenty of Lung Capacity on this Campus

Respiratory Care's Pearl Jue (right) coached Mitra Jazayeri, an SRA in Reproductive Endocrine Research, when the latter stopped by to get her pulmunary function tested. The Respiratory Care staff performed about 100 tests in the Med Sci lobby one morning during the recent Respiratory Care Week. How did people do? "As a group, the campus is pretty long-winded," said Pearl. (Actually, she said strong-*winded.)*

The Rewards of Making a Donation

The thing about The United Way campaign in the Medical Center is that beside the obvious rewards of giving, there also is the opportunity for getting.

Yes, the annual raffle associated with the campaign reappears this year in full force. Make a donation and your name goes in a hat for a chance at winning one of numerous prizes. In fact, this year it looks like the stakes are bigger and the odds for winning are greater than ever before. In the November 1 issue of *Medsounds* we'll print the whole list of items and donors. Meanwhile, here's a sample of the already more than 50 prizes waiting to be won:

- Weekend's lodging for two at Point Reyes Seashore Lodge (Bill Kerr)
- Dinner for two at SF restaurant of your choice (Helen Ripple)
- Case of mixed vintage California wine (Jackie Kuhn)
- Night's stay for two at a Union Square hotel (Marty Diamond)
- Dinner for two at Oritalia (Eleanor Louie & Med Surg division)
- Dinner for two at Allegro (clinical nurse specialists)
- $50 gift certificate/Nordstrom (Jane Hirsch & the OR staff)
- $50 gift certificate/On the Run (Wayne Taylor, ACC)
- $50 gift certificate/The Gap (Steve Downs, Accounting)
- Lunch at Greens (Cathy Garzio, ACC)
- Cheesecake a month for a fiscal quarter (Joan Leonard, Budget & Reimbursement)

Med Center's United Way *(from page 7)*

- Tuesday, October 29 — 2:30 to 4 p.m. in the Moffitt Cafe.
- Wednesday, October 30 — 2 to 3:30 p.m. in Room A 18 at Mount Zion

Agency Fairs

- Wednesday, November 6 — 11 a.m. to 2 p.m. in the Moffitt Cafe
- Thursday, November 7 — 11 a.m. to 1 p.m. in the Mount Zion cafeteria
- Friday, November 8 — 11 a.m. to 1 p.m. in the Mission Center Lobby
- Tuesday, November 12 — 11 a.m. to 1 p.m. in the Mission Center Lobby

If you have question about the donor rep training sessions, talk to your department manager or call donor rep chair Gemma Rieser at 476-4846. For Agency Fair questions, call Cindy Lima, 476-3826.

Roast *(from page 8)*

pediatrician Marvin Auerback, who admitted during his presentation that if his story was deemed the best, the other entries must have been *really* bad.

The winner of the Germany trip is SFGH clinical lab employee Susan Gross. Miraculously, the second and third tickets pulled both belonged to Genentech chief G. Kirk Raab, so he ended up getting both the Oriental rug and the weekend at the Ritz. The other winners were posted in the Med Sci lobby. If you missed it, the Auxiliary's Teru Hirano is planning to distribute a list through the mail.

The Auxiliary, which sponsored the evening, also came out a winner, says event chair Patricia Knight. In addition to the $5,600 raised from the raffle, the money raised from the event itself will go a long way toward the total amount the Auxiliary hopes to raise for a Pediatric Day Treatment Center in the ACC.

Whether you attended the event or bought raffle tickets, or both, the Auxiliary extends its sincere thanks for your support — and, of course, to the Johnson & Johnson Co. for underwriting the event.

Medsounds Continued

By the Fourth Anniversary, a Bit of Fluff is Just What You Want

The ACC's Surgery Center must be a good place to work: The same faces keep reappearing at the annual bash to celebrate the Center's anniversary — now marking its fourth. In the center photo, available members of the staff gathered for an anniversary portrait — although to the left and the right you get more of the flavor of the true spirit of the occasion. Pat Flynn (left) and medical director Marty Bogetz (right) are heavily engaged in a Chubby Bunny competition — you know, the one in which you see who can stuff the most marshmallows in his mouth and still utter the words. (Brad Hultberg won, with 11 marshmallows.) Look, the marshmallow stuff is just fluff: These people have facilitated more than 10,000 outpatient surgeries to date, with a subsequent inpatient admission rate well below the norm. A bit of fluff to top it off is just the sort of thing you want. Pictured, front row, left to right, Marty Bogetz, Gregg Garbin and Deborah Frase; second row, left to right, Virginia Arnone-Martin, Mary Cassidy, Dorothy Lautermilch, Catherine Caserza, Sharon Szabo, George Gomez, Pat Flynn and Karen Corder; top row, Dennis Knapper and Brad Hultberg.

Film, Speakers for Med Center's United Way Campaign

If your (Medical Center) department would like to arrange for a film or speaker in conjunction with the forthcoming United Way campaign, either or both are available for staff meetings, etc.

The celebrity-hosted video, which publicity chair Dennis Piper describes as "very watchable," focuses on The United Way's workings at large. It features several vignettes of families and services that have relied on help from The United Way.

A live speaker, of course, could offer more in the way of a local angle. The speakers include representatives from The United Way local headquarters as well as Med Center campaign chairs Rod Seeger and Laurie Carlson. Call Victoria Narkewicz in Administration at 476-1848 for information.

(Please note: The list of United Way committee members in the last issue of *Medsounds* should have included Victoria as the staff person who is doing much of the coordinating for the campaign.)

You'll notice from the article on page 6 that the prize list is burgeoning for the annual raffle associated with the campaign. The drawing will take place on November 15, at the close of the campaign, but that's not your only opportunity to win something. Attend one of the agency fairs on the dates listed below and you'll have a chance at picking up a door prize just for stopping by. The theme for the fairs is "Getting to Know United Way," which exactly describes the purpose. Each fair features a gathering of booths representing various Bay Areas agencies that benefit from United Way funds. They also feature popcorn.

The actual campaign runs from Monday, November 4, through Friday, November 15. (The donor envelopes will be distributed on November 4). Here are the dates to keep in mind:

Donor Rep Training Sessions

- Thursday, October 24 — 9 to 10:30 a.m. in the Moffitt Cafe

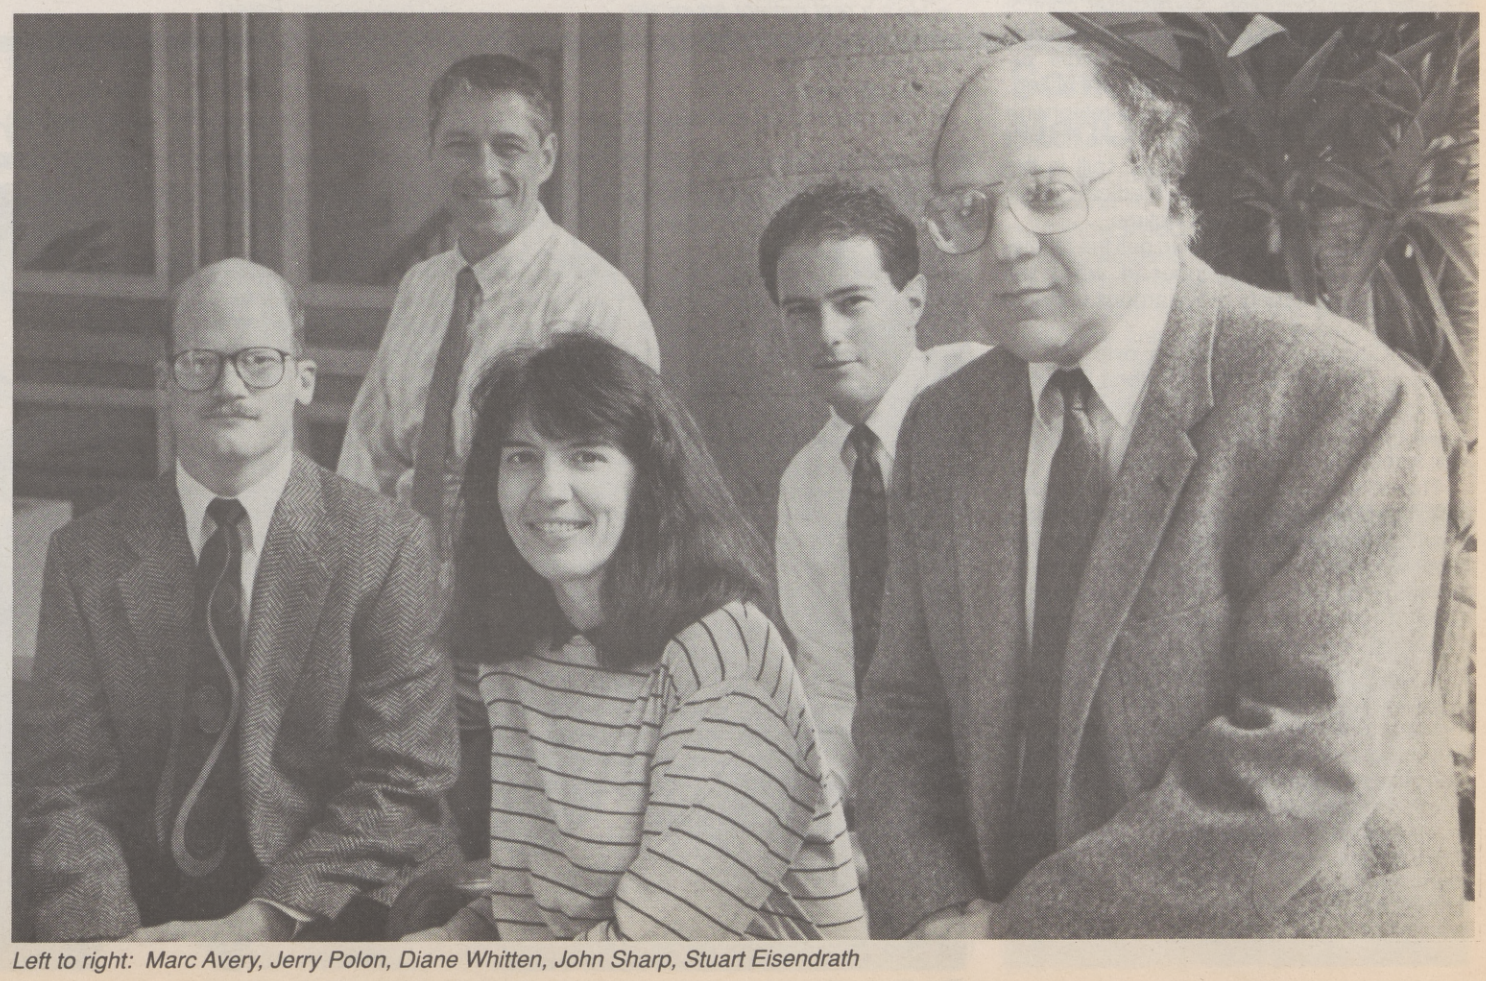
(continued on page 6)

Eisendrath Heads New Psychiatry Consultation Practice in ACC

A new Medical Psychiatry Consultation Practice opened October 1 in the ACC. The practice, which was developed to meet the needs of ACC medical patients with psychiatric problems, is headed by Stuart Eisendrath, associate professor of clinical psychiatry. Eisendrath, an attending psychiatrist in Moffitt-Long for the past 12 years, also serves as chief of the inpatient psychiatric consultation liaison service for the Medical Center. Other members of the practice include:

- Marc Avery, assistant director. An attending psychiatrist in Langley Porter for the past two years, Avery also serves as psychiatric consultant for the liver transplant service and was active in the development of outpatient psychiatric services for AIDS patients.
- Diane Whitten, clinical nurse specialist. After getting her master's in psychiatric nursing, Whitten joined Marc Avery as the CNS working with AIDS patients. She has been a nurse at Langley Porter for seven years.
- Jerry Polon, social worker. Polon's experience in community mental health work includes serving as program director at the Tenderloin Outpatient Clinic and six years as an inpatient social worker at SFGH.
- Psychiatry chief resident John Sharp and senior resident Michael Valan also will be active in the practice.

In addition to providing patient services, the clinic will serve as a teaching rotation in psychiatry for medical students, psychiatric residents, and nursing and social work students. The staff is planning a November open house to welcome all ACC staff to their offices on the eighth floor. Watch for an invitation in the campus mail. Meanwhile, you can call 476-7293 for further information on the services provided by the new clinic.



Left to right: Marc Avery, Jerry Polon, Diane Whitten, John Sharp, Stuart Eisendrath

UCSF Medsounds

Volume 6, Number 18 October 19-November 1, 1991

Two Years After the Earthquake

On the first anniversary of the Loma Prieta earthquake last year we checked in on the three survivors of the UCSF vanpool that got caught in the freeway crush. The situation was: The recovery process was lengthy, but all three were making progress.

At the time, Judy Jester was the closest to a return to a normal lifestyle. She was planning her return to work part-time in Mike Harrison's lab. By now, she already has been back several months, but she'd just as soon keep a low profile on the subject of the earthquake and accident. When reporters from the local media began working on second anniversary earthquake stories, Judy declined an interview, saying she'd just as soon leave it behind now.

Meg Fitzpatrick, who was newly employed in the hematology lab at the time of the accident, was very severely injured. She was just beginning to move around with a walker a year ago. Her progress has continued, says lab manager Joyce Lehmann, and she has plans to come back to work on a part-time volunteer basis. "She isn't sure how much she can do at first," says Joyce, "and being such a conscientious person, she doesn't want to get paid until she feels competent."

When we talked to Nursing Education's Cathy Scarpa last October, she was spending time at her place in Grass Valley. She still had quite a bit of convalescing to do — she was anticipating further abdominal surgery and eventually the removal of the pins that had been placed in her badly broken legs.

Now, a year later, she more or less has made Grass Valley her permanent home. The surgery to remove the pins is now imminent, and she hopes her ability to get around will improve with time. But the future of her career is on hold for the time being. She says she hopes to get in for a visit one of these days, but meanwhile, "Tell everybody 'Hi' — and that I miss them."

Medical Center's Disaster Drill is October 23

During the afternoon of Wednesday, October 23, the Medical Center will participate in a Red Cross earthquake disaster drill. The drill assumes that a major earthquake has struck the San Francisco Bay Area leaving the city without electricity and with major structural damage.

The Medical Center will test all areas of its disaster plan, including the disaster control center, triage, EH&S, police, Capital Resources Management, news and media, radio communications, and public receiving. The drill will assume that campus telephone lines are down, there is a fire on one floor of the Medical Center, and a toxic spill in the Ambulatory Care Center. The Medical Center will receive 15 earthquake victims.

Mount Zion will have its own drill the following day on Thursday, October 24, which will primarily test a variety of hazardous material spills.

The City is conducting its own drill on Sunday, October 27, at the Balboa Bart station (scenario is a fire). UCSF will be one of three hospitals to receive victims during the drill (probably up to seven people).

The morning of the October 23 disaster drill, the Medical Center will be putting on a disaster preparedness educational program for all Medical Center management and nursing administration. Topics will include a review of basic emergency first aid, infection control during a disaster, and a look at operation triage procedures for new managers. All Medical Center administrators and nurse managers should have been alerted to this important program already. If not, you should call Rosanne Rappazini at 476-1405.

90 Years in the Pharmacy, Before and After

At the recent retirement reception for three Clinical Pharmacy cornerstones — Louis Tomimatsu, Nelson Kobayashi and Fred Malmin — their colleagues had the thoughtfulness, or should we say the mischievousness, to post pictures of the three as they looked at the outset of their careers at UCSF. (The photos were gleaned from early ID cards.) From left, clinical pharmacist Louis Tomimatsu, a 33-year employee; Nelson Kobayashi, assistant director of the department, who was here 32 years if you count school; and Fred Malmin, the department's financial manager, a 24-year survivor of the system.

Surprise, Peter! You're Being Honored

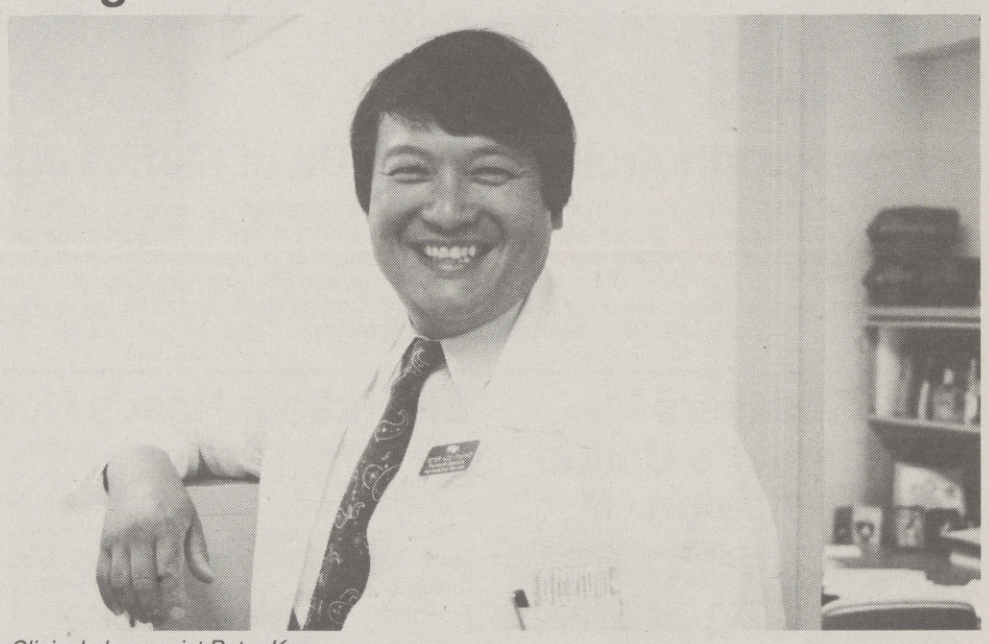
Clinical pharmacist Peter Koo has been named a local hero and the object of this surprise tribute by an assemblage of nurses from the Medical Center's Med-Surg Division.

The idea for paying some kind of tribute began when one of the nurses was thinking about how consistently helpful he has been over the years. It struck her that other people must feel the same way about him, and that he deserved some kind of collective thanks.

This nurse, who prefers to remain anonymous, spoke to some of her colleagues, and they proceeded to gather several pages of positive comments from co-workers throughout the division. The following, says our contact, is a summarized version, drawn up from their collective sentiments:

The nurses at UCSF want to thank Peter Koo for being there. He's there for patients for whom he is gentle and nonjudgmental. He's there for nurses who have a quick question, need a "curbside consult," or need help in navigating around difficult patient issues. Working with patients in chronic pain (with recurrent admissions and often taxing management) is tough, but Peter always seems to have time. Some of the comments about Peter include:

- *Very Koo-Operative*
- *He's a real patient advocate*
- *Great sense of humor*
- *Approachable*
- *Responsive*
- *Calm-mannered and patient*
- *Takes initiative and follows up*
- *Takes the time to talk to you*
- *Knowledgeable*
- *Treats you like a member of the team*
- *He's great*
- *Thanks a lot, Peter!*



Clinical pharmacist Peter Koo

Peter, according to the Clinical Pharmacy's Don Kishi, has spent his entire career at UCSF. He graduated from UCSF in 1976, completed a residency in 1977 and joined the staff in 1977. Currently he is a pharmacist specialist in pain management and an associate clinical professor in the School of Pharmacy. In addition to his inpatient and faculty responsibilties, Peter actively participates in the ACC Pain Clinic. This is not to mention his assistance in the department with all things having to do with computers and his staffing of the 11th floor pharmacy satellite 12 hours a week (et cetera).

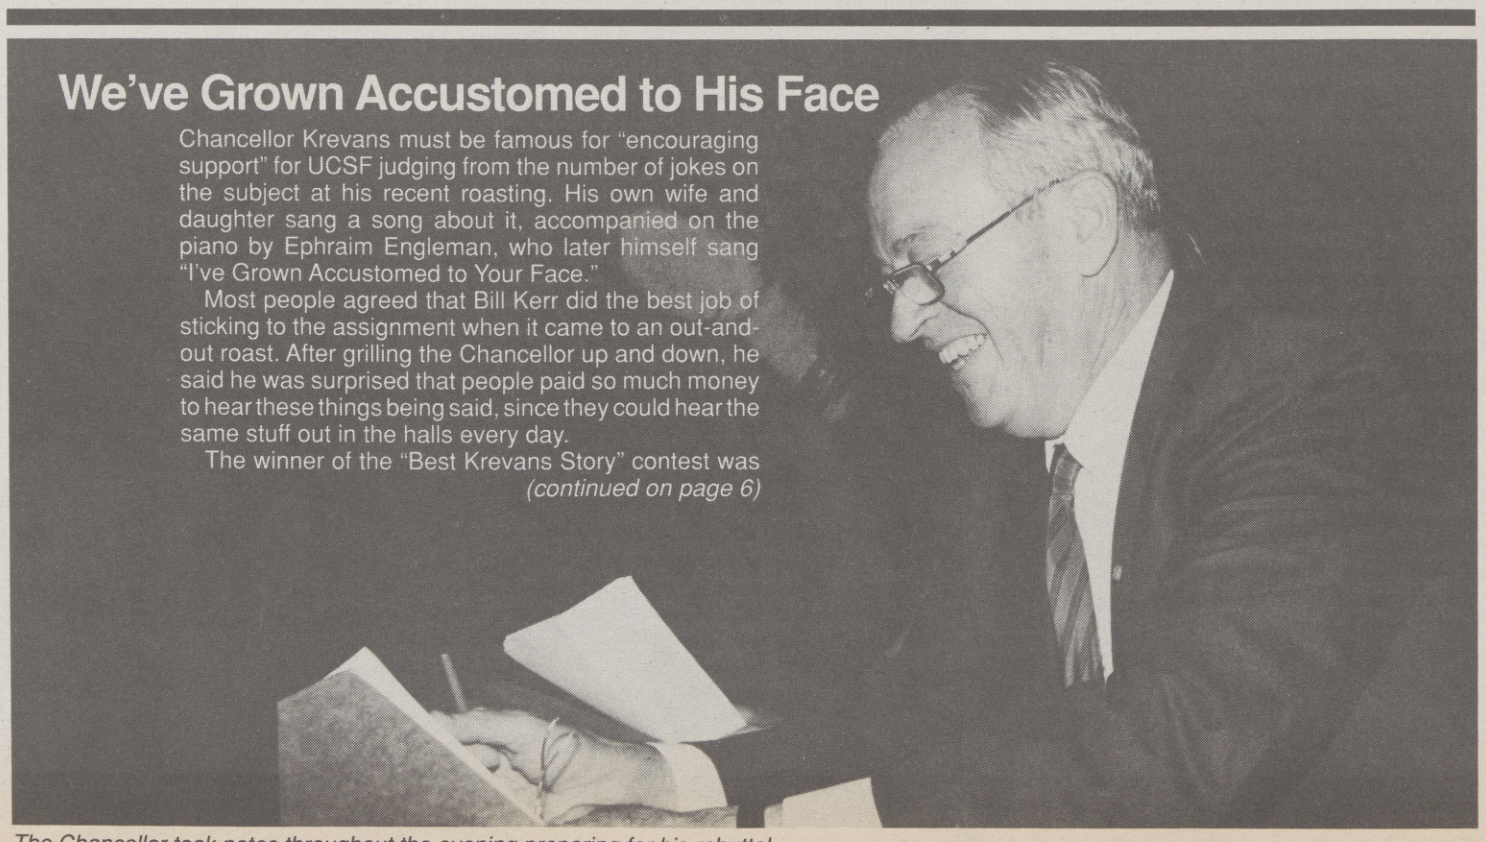
We've Grown Accustomed to His Face

Chancellor Krevans must be famous for "encouraging support" for UCSF judging from the number of jokes on the subject at his recent roasting. His own wife and daughter sang a song about it, accompanied on the piano by Ephraim Engleman, who later himself sang "I've Grown Accustomed to Your Face."

Most people agreed that Bill Kerr did the best job of sticking to the assignment when it came to an out-and-out roast. After grilling the Chancellor up and down, he said he was surprised that people paid so much money to hear these things being said, since they could hear the same stuff out in the halls every day.

The winner of the "Best Krevans Story" contest was

(continued on page 6)



The Chancellor took notes throughout the evening preparing for his rebuttal.
